TO WHOM SO EVER IT MAY CONCERN

Dr.Raghavan Ramankutty is known to me for more than three decades. He is known to me as a medical student in the Government Medical College, Kottayam, Kerala, and as a practicing doctor of Ayurveda and modern medicine for the last thirty five years.

He has in-depth knowledge of Ayurveda, and this has enhanced his clinical ability to successfully manage several neurological diseases (including post-traumatic neurological complications) without established cure in modern medicine.

We have jointly treated many malignant patients successfully and this is attributable to Dr.Raghavan Ramankutty's interest in an integrated approach to disease management.

His philanthropic medical service to 1000s of people of Kerala and other parts of India during infective hepatitis epidemic in 1970s, and Chikungunya epidemic in Kerala during 2006-2007 was commendable.

Currently he is undertaking an Oncology research in association with J.K.Cancer Institute, Kanpur, India and the Indian Institute of Technology-Kanpur to map the etiology of malignancies by applying his unique pulse examination skill-set acquired during his Ayurvedic academic training under his teacher Swami Dathathreya.

I wish him success for his future endeavor.

Dr. C.P. Mathew MS, DMR
DR. C. P. MATHEW. MS, DMR

Retired Director, Regional Cancer Institute Trivandrum

Retired Professor of Oncology,

Retired Principal, Government Medical College, Kottayam
